During the 1999-2000 school year, a sample of students across the country, including some students from your school, will be given a series of questions as part of the National Assessment of Educational Progress (NAEP). The current assessment focuses on achievement in mathematics and science. As part of the assessment, NAEP will investigate the relationship between students' achievement and various school, teacher, and home factors that may influence this achievement. We are asking your school to complete this questionnaire about school factors. **This questionnaire should be completed by the principal or other head administrator.**

We realize that you are very busy; however, we urge you to complete the questionnaire as carefully as possible. The information that you provide is being collected for research purposes only and will be kept strictly confidential.

NAEP is authorized under Public Law 103-382. While your participation is voluntary, your responses to these questions are needed to make this survey accurate and complete.

Please answer directly on the questionnaire by filling in the appropriate ovals or boxes, as directed.

When you are finished, please return the questionnaire to your school's NAEP coordinator.

Thank you very much for your help.

School Characteristics and Policies Questionnaire

This questionnaire should be completed by the principal or the head of the school.

A representative sample of students across the country, including some students in your school, has been selected to take part in the National Assessment of Educational Progress (NAEP). The current assessment focuses on reading, mathematics, and science. As part of the assessment, NAEP will investigate the relationship between students' achievement and various school, teacher, and home factors that may influence this achievement. In order to obtain a complete picture of how all students are doing, it is important to collect information on all students sampled who have been identified as having a physical or mental disability or are classified as limited English proficient, whether they will be assessed or NOT. We are asking you to complete this questionnaire about one of those students.

We realize that you are very busy; however, we urge you to complete this questionnaire as carefully as possible. The information you provide will be kept confidential.

NAEP is authorized under Public Law 103-382. While your participation is voluntary, your responses to these questions are needed to make this survey accurate and complete.

Answer directly on the questionnaire with a number 2 pencil by filling in the appropriate oval and, if necessary, by writing your response in the space provided. When you are finished, please return the questionnaire to your school's NAEP coordinator.

Thank you very much for your help.

21. Including the current school year, how long has this student been receiving **academic instruction in science primarily in English?** Q8270890

- Student does not receive academic instruction primarily in English.
- 1 year
- 2 years
- 3 years
- 4 years or more
- I don't know.

22. **During this school year, what percentage of this student's academic instruction is provided in his/her native language?** Q8270841

- 0%
- 1-24%
- 25-49%
- 50-99%
- 100%

23. **What grade level of instruction is this student currently receiving in English reading/English language arts?** Q8270843

- This student is currently not receiving instruction in English reading/English language arts.
- At or above grade level
- One year below grade level
- Two or more years below grade level
- I don't know.

SD/LEP Questionnaire—Continued

24. What grade level of instruction is this student currently receiving in **mathematics**? QK370843

- This student is currently not receiving instruction in mathematics.
- At or above grade level
- One year below grade level
- Two or more years below grade level
- I don't know.

25. What grade level of instruction is this student currently receiving in **science**? QK370844

- This student is currently not receiving instruction in science.
- At or above grade level
- One year below grade level
- Two or more years below grade level
- I don't know.

26. Are any accommodations or adaptations used for district or statewide achievement testing for this student? QK370853

- Yes, tested with accommodations or adaptations
- No, tested without accommodations or adaptations
[GO TO QUESTION 28]
- IEP states that student cannot be tested (for LEP students classified as SD).
[GO TO QUESTION 28]

27. If your answer to question 26 is "Yes," which accommodations or adaptations are used for district or statewide achievement testing with this student? (Fill in all ovals that apply.)

Q0270504

- Native language version of test
- Bilingual version of test
- Word lists or glossaries
- Bilingual dictionary
- Help from a native speaker in interpreting directions and questions
- Directions read aloud in English
- Questions read aloud in English
- Extended time
- Other (specify) _____

28. How would this student most appropriately participate in the NAEP reading/language arts assessment?

Q0270500

- English version without accommodations or adaptations
- English version with accommodations or adaptations
- Native language version or a bilingual version with or without accommodations or adaptations
- This student would not participate.

SD/LEP Questionnaire—Continued

29. How would this student most appropriately participate in the NAEP **mathematics** assessment? Q037000

- English version without accommodations or adaptations
- English version with accommodations or adaptations
- Native language version or a bilingual version with or without accommodations or adaptations
- This student would not participate.

30. How would this student most appropriately participate in the NAEP **science** assessment? Q037001

- English version without accommodations or adaptations
- English version with accommodations or adaptations
- Native language version or a bilingual version with or without accommodations or adaptations
- This student would not participate.

Appendix C

2000 High School Transcript Study Classification of Secondary School Courses

APPENDIX C. LISTINGS OF COURSE CODES WITHIN SUBJECT-AREA CATEGORIES

This appendix presents the subject field taxonomy that provides the structure for grouping the high school transcript courses. The lists that follow identify the Classification of Secondary School Courses (CSSC) codes in each subject field category. These categories are referred to as “stubs” because they are associated with row labels, or stubs, in the tables.

The subject field categories are organized according to the Secondary School Taxonomy (SST).¹⁹ Exhibit C-1 displays the taxonomy. Two categories have been added to the second level of the SST: Computer-Related Studies and Special Education.

The Computer-Related Studies category belongs to the Academic group. This category contains all CSSC codes related to computer-related studies. It has three subcategories: Clerical and Data Entry, Computer Applications, and Computer Science. All the CSSC codes that appear in this subject field category also appear in other subject field categories, most notably the Specific Labor Market Preparation category under Vocational Courses. The reason for adding this category was to maintain the computer-related course category from the original high school course taxonomy used in HS&B 1982, HSTS 1987, and HSTS 1990.

The Special Education category belongs to the Personal/Other Courses group and includes a large number of courses that are usually open only to students with Individualized Educational Programs (IEP). Some special education course CSSC codes also appear in other subject field categories, mostly in the core academic subjects of English and mathematics. Other special education course CSSC codes appear only within the Special Education category. The reason for adding this category was to implement the HSTS as an aid in special education research.

The addition of the Computer-Related Studies and Special Education categories caused some CSSC codes to be listed under two or more subject field categories. When totaling a student’s overall earned credits, or credits earned in academic, vocational, and personal/other courses, these CSSC codes were only counted once. They counted toward their original SST subject field category, not the newly added category.

¹⁹ Gifford, A.G., Hoachlander, E.G., and Tuma, J.E., *The Secondary School Taxonomy, a report prepared for the National Assessment of Vocational Education*, Office of Planning, Budget, and Evaluation, U.S. Department of Education (Berkeley: MPR Associates, Inc., February, 1989).

The Academic group includes an additional number of subcategories for some of its categories. These subcategories do not change the definition of any of the existing categories or subcategories, but provide a means for summarizing the data at a level that has proved useful in previous transcript studies. For example, because they may be of special analytic interest, some Academic subjects include subcategories for remedial/below grade level courses and Advanced Placement/International Baccalaureate/Honors courses.

Note that the categories are hierarchical in nature. That is, course codes that appear in a subcategory also appear in the appropriate higher-order category. For example, the CSSC code for “Calculus” (270419) appears in the Calculus subcategory and the Mathematics category. The CSSC code for “Etymology” (230412) appears in the Survey English subcategory and the English category.

The Hierarchical Listing that follows indicates in outline form the categories and subcategories. The Detailed Stub List, which follows the Hierarchical Listing, is presented in the same order as the Hierarchical Listing. The Detailed Stub List is an exhaustive list of every code included in each category and each subcategory. It contains all valid CSSC codes whether or not they appear in the current study. Previously used codes that have been dropped or reassigned have been included for the sake of completeness. This version of the SST can be applied to any study using the CSSC without the need for additional codes.
